– Improved by 44% YoY in H1FY24 reflecting the strong growth in business

Hyderabad Airport reported PAT of INR 220 Cr in H1FY24 (up 2.7x YoY)

Key Developments

Steady progress on the Merger of GMR Airports Ltd with GMR Airports Infrastructure Ltd[§]

With an objective to enhance shareholder value by simplifying the corporate structure and bringing public shareholders closer to the airport assets, GMR had announced the execution of the Agreement and Scheme of Merger of GMR Airports Ltd (GAL) with GMR Airports Infrastructure Ltd (GIL). In this context, varied steps have been achieved paving the way further for the merger completion within expected timeline of FY24. Already received CCI approval for the merger during Q4FY23. Received the NoC to the merger from the Reserve Bank of India (RBI) & both the Stock exchanges during Q1FY24. Merger application was filed with the National Company Law Tribunal (NCLT) and as a further progressive step in the Merger process, recently inter-alia received NCLT direction for convening the meeting of the Equity Shareholders of GIL in December 2, 2023.

Acquisition of 11% stake of GMR Hyderabad International Airport Limited^{§§}

In line with the objective of consolidating presence in the core airport assets, GMR had announced that GAL and Affiliates (“GMR Group”) have entered into a Share Purchase Agreement (“SPA”) with Malaysia Airports Holding Berhad (“MAHB”) and MAHB’s wholly owned subsidiary, MAHB (Mauritius) Private Limited (“MAHB Group”), towards acquisition by GMR Group from the MAHB Group, of their current minority 11% equity stake in GMR Hyderabad International Airport Limited (“GHIAL”), a step down subsidiary of GIL. The said acquisition would be for a negotiated aggregate consideration of USD 100 million. GAL currently holds 63% of the paid-up capital of GHIAL and post the proposed acquisition, its stake in GHIAL would increase to 74%. Government of Telangana (GoT) and the Airports Authority of India (AAI) hold 13% each in the equity stake of GHIAL. The transaction, subject to the customary closing conditions, is expected to be concluded within a maximum of 135 days from the date of execution of the said SPA.

Mopa (Goa) Airport recent operational updates

Goa airport is fully operational. Domestic operations had commenced from January 5, 2023. IndiGo, Akasa, Spicejet and Vistara are operational. International operations started on July 21, 2023 with Air India operating international flights to London, Gatwick three times weekly. Indigo and Oman Air have also commenced international flight operations to Abu Dhabi and Muscat respectively three times weekly. On non-aero front, Duty free stores were operationalized on July 22, 2023; Greenfield cargo terminal was also operationalized on August 28, 2023 with International operations starting from September 8, 2023

Delhi Airport becomes the Only Indian Airport with Four Operational Runways & Elevated Cross Taxiway [@]

Delhi Airport added another milestone in its sustainability journey of becoming a net zero carbon emission airport by 2030 by inaugurating the 4th runway and the Eastern Cross Taxiway (ECT). While the 4.4-kilometre-long runway will enhance the operational efficiency at Delhi Airport, the ECT will help lessen aircraft emissions viz. reducing the taxiing time for the aircraft, improving airport operational efficiency, saving natural resources such as ATF, and enhance the flyer experience. Additionally, the ECT at Delhi Airport will help reduce about 55,000 tonnes of CO₂ emission, which is equivalent to planting about 15 lakh trees.

Update on Tariff Matters of Delhi Airport

Telecom Disputes Settlement & Appellate Tribunal (TDSAT) has pronounced its order on July 21, 2023 w.r.t appeal preferred by Delhi Airport against the Orders passed by the Airport Economic Regulatory Authority (AERA) towards Tariff determination for Delhi Airport for the 2nd and 3rd Control Period. TDSAT in its order has allowed certain claims of Delhi Airport and has dis-allowed certain claims. The order can be appealed in the higher courts.

Land Lease Agreement with Safran Aircraft Engines for MRO

GMR Hyderabad Aviation SEZ Limited (GHASL), a 100% subsidiary of GHIAL has recently signed a Land Lease Agreement with Safran Aircraft Engines Services India Pvt. Ltd, a subsidiary of Safran, a global leader in aircraft propulsion and equipment, space and defense markets. As per the agreement, GHASL will lease land to Safran who will build and operate the Engine MRO facility for LEAP turbofan engines. Spread across 23.5 acres of the land parcel within SEZ area of GMR Aerospace & Industrial Park, this facility will occupy around 36,500 sqm of built-up space. The construction of the facility has commenced and is expected to commence the operations in 2025. This facility in Hyderabad will be the largest MRO center in the Safran Aircraft Engines network.

Hyderabad Airport transitioned to 100% sustainable green energy

Taking a leap towards sustainability, Hyderabad International Airport has transitioned to 100% sustainable green energy for its energy consumption at the airport and across its ecosystem. Hyderabad Airport, in partnership with Telangana State Southern Power Distribution Company Limited (TSSPDCL), will revolutionalise its operations by harnessing the power of green energy through a combination of its own 10 MWp (megawatt peak) solar power plant and green energy supplied by TSSPDCL. The airport, by integrating green energy into its operations and infrastructure, will reduce its carbon footprint by approx. 9,300 tons of carbon dioxide annually.

About GMR Group

GMR Group is a leading global infrastructure conglomerate with unparalleled expertise in designing, building, and operating airports. It also has a significant presence in sectors like Energy, Transportation, and Urban Infrastructure.

GMR Airports is the largest private airport operator in Asia and 2nd largest in the world with a passenger handling capacity of over 189 million annually. GMR Airports Limited, a subsidiary of GMR Airports Infrastructure Limited [formerly known as GMR Infrastructure Limited] (GIL) has Groupe ADP as its strategic partner, which is holding a 49 per cent stake. GMR Airports operates the iconic Delhi Airport, which is the largest and fastest-growing airport in India. It also runs Hyderabad Airport, a pioneering greenfield airport known for several technological innovations. The company also operates Manohar International Airport, Goa (Mopa), which is India's first destination Airport. The airport offers everything a tourist looks for i.e. liveliness in the serene lap of nature, making it a perfect destination for leisure and holistic tourism.

Expanding its overseas footprint, the company is developing and operating Kualanamu International Airport in Medan, Indonesia, in collaboration with Angkasa Pura II (AP II). GMR Airports is also providing technical services to the architecturally renowned and the second busiest airport in the Philippines, Mactan Cebu International Airport in Cebu.

The Group is currently developing two major greenfield airport projects in India and Greece. Bhogapuram airport in India is poised to transform the economy and landscape of the surrounding areas when ready. Crete airport in Greece will similarly play a significant role in the local economy of the region.

GMR Aero Technic (GAT) is India's largest integrated world-class third-party MRO; a part of GMR Hyderabad International Airport Limited (GHIAL). GAT provides complete technical support to aircraft operators, with utmost quality and reliability to ensure that its customers meet their operational requirements. GAT has been constantly upgrading its capabilities and expanding its service offerings to meet the growing maintenance needs of airline operators within and outside India, with a vision to be a lead MRO in the Asia Pacific region.

As a pioneer in implementing the path-breaking Aerotropolis concept in India, GMR Airports is developing unique airport cities on commercial lands available around its airports in Delhi, Hyderabad, and Goa. GMR Delhi Aerocity is a landmark business, leisure, and experiential district. Similarly, GMR Hyderabad Aerocity is coming up as a new-age smart business hub.

GMR's energy businesses have an installed capacity of over 3,000 MW capacity. With a significant focus on green energy, the company is working towards creating a more sustainable environment by harnessing the power of wind, water, and sun for energy generation. It has a balanced mix in its energy generation portfolio. Around 1,000 MW of clean energy projects of GMR are under various stages of development in India and Nepal.

The Transportation and Urban Infrastructure division focuses on surface transport projects including Roads, Railways, and Airstrips/ Runways in both DBFOT (under GMR Highways) and EPC (under GIL – EPC) segments. The Group has four operating highway assets spanning over 1,824 lane kilometres.

Group's EPC business is working on the design and construction of the prestigious Eastern Dedicated Freight Corridor project of DFCCI (Dedicated Freight Corridor Corporation of India). GMR Group is also developing multi-focus Special Investment Regions in India.

GMR Group's underlying philosophy is to work closely with and support the local communities wherever it is present. Towards this, GMR Varalakshmi Foundation (GMRVF), the CSR arm of the Group, focuses on improving the quality of life of people by enhancing skills, providing education, and developing healthcare infrastructure and services.
