Statement on Significant Accounting Policies and Notes to the Accounts

I. Significant Accounting Policies

Accounting Assumptions

These accounts have been prepared under the historical cost convention on the basis of a going concern, with revenues recognised and expenses accounted on their accrual and amounts determined as payable or receivable during the year, except those with significant uncertainties and in accordance with the applicable Accounting Standards as issued by the Institute of Chartered Accountants of India and relevant provisions of the Companies Act, 1956.

Revenue Recognition

The Company recognizes significant items of income and expenditure on accrual basis except in case of those with significant uncertainties. Dividends declared by subsidiary companies after the Balance Sheet date, are recognised as income in the year to which they relate if they are declared before the approval of the financial statements by the Board of Directors.

Income from management/technical services is recognised as per the terms of the agreement and on the basis of services rendered.

Fixed Assets

Fixed Assets are stated at cost of acquisition less depreciation. Cost of acquisition is inclusive of freight, duties, levies and all incidentals attributable to bringing the asset to its working condition.

All the fixed assets are assessed for any indication of impairment at the end of each financial year. On such indication, the impairment (being the excess of carrying value over the recoverable value of the asset) is charged to the Profit and Loss account in the respective financial year. The impairment loss recognized in the prior years is reversed where the recoverable value exceeds the carrying value of the asset upon re-assessment in the subsequent years.

Depreciation

Depreciation is provided on straight line method at the rates specified under Schedule XIV to the Companies Act, 1956 except for assets of less than Rs. 5,000, which are fully depreciated in the year of acquisition.

Leasehold improvements are amortized over the period of the lease or estimated useful life whichever is shorter

Investments

Long term investments are valued at cost and provision for diminution in value is made for any decline, other than temporary, in the value of such investments for each category. The Current investments are valued at cost or market value whichever is lower. Cost of acquisition is inclusive of expenditure incidental to acquisition. Income from investments is recognised in the year in which it is accrued and stated at gross.

Foreign Currency Transactions

Transactions made during the year in foreign currency are recorded at the exchange rate prevailing at the time of transactions. Monetary assets and liabilities related to foreign currency transactions remaining unsettled at the year end are translated at the exchange rate prevalent at the date of Balance Sheet and the resultant gain/loss is recognised in the financial statements.

Retirement Benefits

Retirement Benefits are accounted for on accrual basis in respect of contribution schemes such as Provident Fund and Superannuation Fund with contributions charged against revenue each year. Liability for gratuity is funded through a scheme administered by an insurer and provision is made based on actuarial valuation carried out as at Balance Sheet date. Provision for leave encashment is made on actual liability basis for the leave outstanding as at the year end.

Earnings Per Share

The earnings considered in ascertaining the company's Earning Per Share (EPS) comprise the net profit after tax less dividend (including dividend distribution tax) on preference shares. The number of shares used for computing the basic EPS is the weighted average number of shares outstanding during the year.

Taxes on Income

Current tax is determined based on the amount of tax payable in respect of taxable income for the year. Deferred tax is recognized on timing differences; being the difference between the taxable incomes and accounting income that originate in one year and are capable of reversal in one or more subsequent years. Deferred tax assets and liabilities have been

Schedule 16 (Contd.)

computed on the timing differences applying the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets arising on account of unabsorbed depreciation or carry forward of tax losses are recognized only to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized.
